對醫療錯誤勇敢合宜地 Speak-up！守護病安從心開始

身為投身醫學教育的臨床醫師，我體會到，在面對醫療錯誤時，真正守護病人安全的關鍵，不僅是知識與技術，而是從個人心中的信念到組織文化的影響。發聲行為需要氛圍的建立、文化支持與具體訓練養成。若無法有效地發聲，錯誤可能造成病人傷害，也會讓醫療人員陷入自責與倦怠，進而動搖體系的穩定。

我與團隊夥伴設計以病人安全為核心的模擬課程與研究。我們發現，在醫療錯誤的情境中，影響醫學生發聲的因素包含了懲罰憂慮、現場氛圍、團隊互動與自信心，而制度獎勵並不是關鍵。我們也證實，透過模擬與個別化訓練，學員在危急情境中更敢發聲，且能調整語氣與方式，學會策略性、不冒犯的表達。這證明發聲能力能被培養，而非天賦使然，且學習成效能延續到臨床，推動病安文化。我也將研究拓展至護理教育，透過系統性回顧與統合分析，確認自信溝通訓練能有效提升護理人員的發聲行為，尤其資淺學員進步最顯著。

這些成果不僅為醫學教育建立清晰架構，更在實務上改變了學員行為。及時而得體的發聲能預防錯誤、減少糾紛、提升團隊互信，也能減輕醫療人員壓力，降低倦怠與流失。從社會層面來看，當醫療人員能安心表達疑慮，代表體系具備自我修正能力，能增進大眾對醫療的信任與安全感，並減少資源浪費。

我相信，發聲不只是「怎麼說」，更是「為什麼說」的信念。這份信念代表對病人、團隊與社會的責任。我將持續推動以模擬與個別化策略為核心的教育模式，讓醫療體系更安全、更有韌性，進而造福全民健康。

吳人傑 Jen-Chieh Wu

臺北醫學大學附設醫院
急診醫學科主治醫師

Reasons for speaking-up to medical error in life-threatening scenario
- a. The patient's life is in danger so I have to react.
- b. The patient is in critical condition and there is no room for mistake.
- c. As a doctor, I should be able to provide the most appropriate treatment for the critically ill patient.
- d. I should provide my opinions to assist the medical team in this kind of critically medical condition.
- e. I would raise my concerns when other's opinion was different than mine.

Reasons for speaking-up to medical error in non-life-threatening scenario
- a. I wanted to make confirmation about my thoughts and the underlying reasons of the different management.
- b. This is not a life-threatening condition so there is time for discussion.
- c. I would raise my concerns when other's opinion was different than mine.

Reasons for speaking-up to medical error in life-threatening scenario
- a. I did not have enough clinical experience and may delay the treatment the critically ill patient.
- b. Senior physician should be in charge in this kind of critical condition.
- c. If I was wrong, the patient may get worse and others in the medical team would have negative impression on me or blame me.
- d. This is the senior physician's decision, not my concern.
- e. If senior physician was wrong, nurse would speak up for the wrong order from senior physician because she had more experience.

Reasons for speaking-up to medical error in non-life-threatening scenario
- a. I would have more confidence to provide my suggestion if the senior physician's order was not effective.
- b. There may be other treatment which I never learned before. I could discuss with the senior physician that after treating this patient.
- c. The patient's life is not in danger. I could provide my suggestion after the senior physical managed the patient.

得獎感言

能夠得到國家科學及技術委員會學門師長的肯定，我的心中除了感激還是感激，這一段時間的努力能夠被看見及被鼓勵，真的對我是很大的激勵，讓我能夠持續堅定的向前走。

以臨床醫師的身份進入醫學教育甚至是研究的領域，是我本來沒有預期但感到非常幸運的選擇，這在現今這個變動迅速且在意工作生活及薪資平衡的時空背景下，這個選擇顯得特別的不一樣。

而在迷惘以及徬徨中，持續有一群願意共同奮鬥以及打拼的夥伴，我們的 GET 教學研究團隊：以諾、惠雯、皓羽、虹蓁、宜君、禹睿、鴻維、逸庭、月婷、昭淳、旻妏，真的是最幸運的一件事，因為有你們，才可能有這個獎。也很感謝一路上引導以及鼓勵我的師長們，有你們的帶領，我們才有機會持續地前進。

學歷

中山醫學大學醫學士(1985)

經歷

臺北醫學大學醫學院醫學系醫學教育暨人文學科助理教授(2024/2~迄今)
臺北醫學大學附設醫院教學部臨床技能中心主任(2023/12~迄今)
臺北醫學大學附設醫院急診醫學科主治醫師(2013/12~迄今)

個人勵志銘

"Persistence and determination alone are omnipotent. The slogan 'Press On!' has solved and always will solve the problems of the human race." - Calvin Coolidge
